

CAPABILITY STATEMENT

“The quality of their work was phenomenal. From the outset, Jamie and his team were transparent about pricing and maintained excellent communication throughout the project. Their professionalism and proactive approach truly stood out. The entire NSC crew was a pleasure to work with.”

COMMERCIAL

Commercial facilities, office buildings, retail, hospitality and mixed-use developments.

INDUSTRIAL

Warehouses, workshops, industrial facilities and operational infrastructure.

EDUCATION

Schools, colleges, learning environments, refurbishments and campus upgrades.

GOVERNMENT

Public buildings, civic facilities and government infrastructure projects.

COMMUNITY AND CIVIL

Community buildings, recreational facilities and public infrastructure.

REMEDIATION WORKS

Site restoration to secure building safety and compliance.

REFURBISHMENTS AND FIT-OUTS

Commercial refurbishments, occupied-site upgrades and adaptive reuse projects.

NEW CONSTRUCTION AND UPGRADES TO EXISTING FACILITIES

National Strategic Constructions (NSC) operates on straightforward principle: deliver professionally, communicate openly and build lasting relationships.

Established in 2006 by Jamie Edenborough and backed by industry experience dating back to 1991, National Strategic Construction has delivered projects throughout Australia, building a reputation for practical project delivery, reliability and strong client relationships.

Today, National Strategic Construction is a proudly Australian-owned and operated family business delivering commercial construction projects throughout Newcastle, the Hunter Region and New South Wales. We undertake projects across the commercial, education, community and civil, government and industrial sectors, including new construction, remediation works, refurbishments, fit-outs and upgrades to existing facilities.

We take the time to understand our client's objectives and deliver practical construction solutions that respond to the unique requirements of each project.

We work collaboratively with clients, consultants and subcontractors to deliver projects safely, efficiently and to a consistently high standard with a strong focus on communication, quality, programme and budget outcomes.

Our business is built on values of honesty and integrity, which guide every aspect of our work. These principles underpin our relationships with clients, our commitment to quality workmanship, robust safety systems and continuous improvement in safety. We believe lasting client relationships are built through transparency, collaboration and consistently delivering what we promise.

PROJECTS

OUR APPROACH

Every project is different, but the principles guiding our approach remain consistent.

We believe successful projects are built on clear communication, practical thinking and strong working relationships.

By working collaboratively with clients, consultants and subcontractors, we take the time to understand each project's objectives, identify challenges early and develop practical construction solutions that support successful delivery.

Our team takes ownership of every project, remaining approachable, responsive and accountable from commencement through to completion. We believe trust is earned through transparency, proactive communication and consistently delivering on our commitments.

Health, Safety & Quality

National Strategic Constructions is committed to providing a safe and healthy working environment for employees, clients, subcontractors, visitors and the public. Safety is integrated into every stage of project delivery through effective planning, appropriate supervision and continuous improvement of our management systems.

Supported by our Integrated Management System, our team is committed to regulatory compliance, quality workmanship and maintaining safe work practices across every project. Our objective is not simply to comply with legislative requirements, but to create a positive safety culture where planning, communication and accountability contribute to successful project outcomes.

“ Jamie takes ownership of every task, anticipating potential challenges and ensuring nothing is missed. This foresight helped us avoid any last-minute surprises that could impact our budget. ”

OUR PEOPLE

We believe our people are fundamental to the successful delivery of every project. Our team combines experienced leadership, skilled tradespeople, apprentices and trusted partners who share a commitment to quality, safety and professionalism.

NSC operates through a practical, director-led structure that promotes accountability, responsive decision-making and clear communication throughout every stage of project delivery.

Leadership

Managing Director Jamie Edenborough provides strategic leadership across the business and remains actively involved in the planning, procurement and delivery of construction projects. Backed by construction industry experience dating back to 1991, Jamie works closely with the estimating, project coordination and site delivery teams to maintain oversight of programme, commercial performance, quality and client outcomes.

This director-led structure enables timely decision-making, direct communication and proactive project management, providing clients with confidence that projects are delivered professionally, efficiently and with clear accountability throughout construction.

Jamie Edenborough, Managing Director

Project Teams

Our project teams are supported by experienced site supervisors, qualified tradespeople, apprentices and a trusted network of specialist subcontractors and suppliers. Resources are allocated to suit the size, complexity and delivery requirements of each project, ensuring the appropriate skills, supervision and expertise are available from tender through to completion.

Apprenticeship Program

We are committed to developing the next generation of construction professionals through ongoing apprenticeship and workplace development opportunities.

Our apprentice work alongside experienced tradespeople and supervisors, receiving practical guidance, mentoring and exposure to safe, high-quality construction practices.

By investing in our people, we strengthen our workforce, support the long-term capability of the construction industry and continue building a culture of learning, accountability and continuous improvement.
